

# ANONYMIZING PROXY

**Anonymizing Proxies** allow the user to hide their web browsing activity. They are often used to bypass web security filters—e.g., to access blocked sites from a work computer.

**Anonymizing Proxies hold SECURITY and LIABILITY risks for ORGANIZATIONS:**

The **Anonymizing Proxy** bypasses **web security** and allows users to access unauthorized webpage's

**Organizations** can be **legally liable** if their computers are used to view pornography, hate material or to incite illegal behaviour. There are also ramifications if users violate third-party licenses through illegal MP3, film and software downloads
