

Phishing Emails

Online services with access to your financial information

Typically in a phishing email scam, you receive an email that appears to come from a reputable organization, such as:

Departments in your own organization

Anti-phishing software can block many phishing-related emails.

it.northwestern.edu

To protect against phishing attacks, it's a good practice not to click on links in email messages. Instead, you should enter the website address in the address field and then navigate to the correct page, or use a bookmark or a Favorite link. Phishing emails may also include attachments, which if opened can infect the machine.
