office and branch applications.

Adding 3D Effect and Shadow to Objects in Document Using Writer 2013

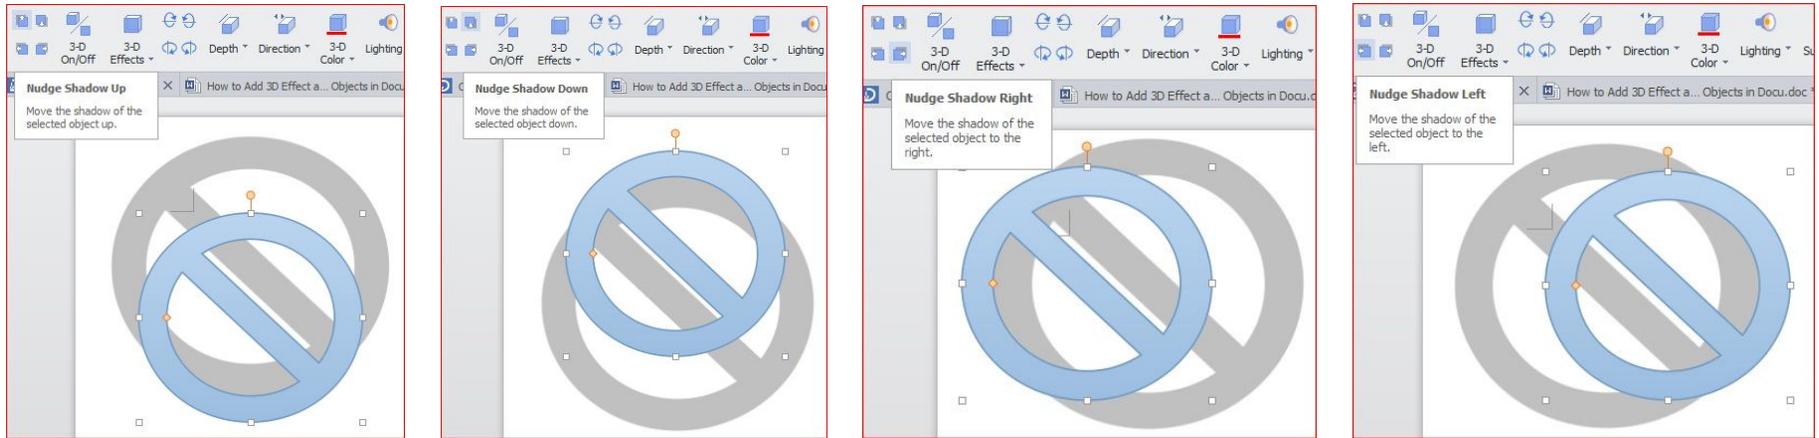

1. To add 3-D effect to an object, first select the object then click the **3-D Effect** icon in the **Formats** tab and choose the preferred 3-D style.

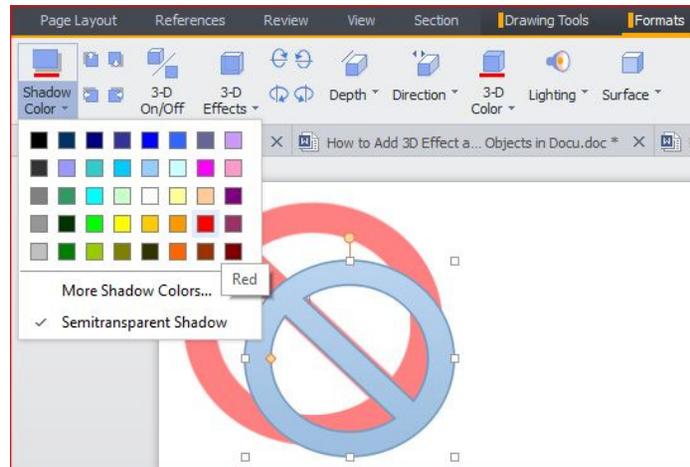

2. To set up the shadow of picture and object, first select the object then click the **Shadow Effects** icon in the **Formats** tab. Select the preferred shadow style.

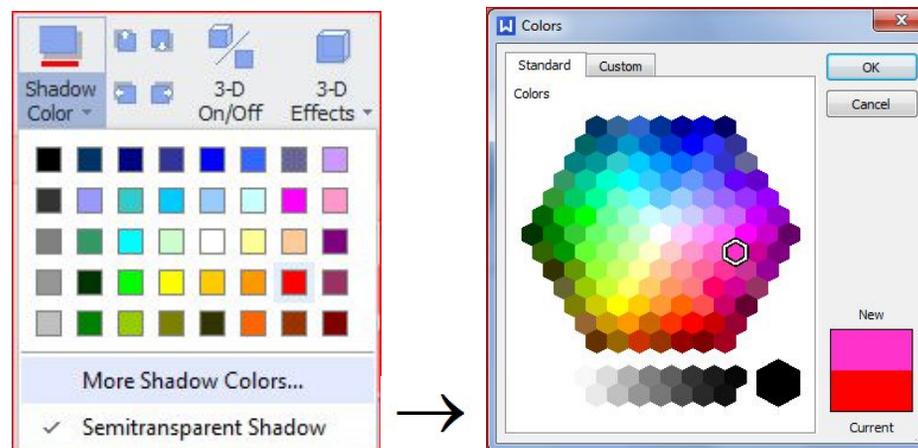

3. To adjust the direction of the shadow, select the **Nudge Shadow Up**, **Nudge Shadow Down**, **Nudge Shadow Right**, **Nudge Shadow Left** icons.

4. To change the color of a shadow, select the object. Under **Formats** tab, select the arrow beside the **Shadow Color** icon and select the preferred color.

5. For more choices of color, choose **More Shadow Colors** option in the opened drop-down menu. You can then select any color that you like from the **Colors** dialog box. Select the preferred color and click the **OK** button.

6. Select the **Semitransparent Shadow** option in the **Shadow Color** drop-down menu to meet your personal demands.
