Convert your data to a different unit of measurement

The Analysis ToolPak is included with Excel, and it's a breeze to install.

To install the Analysis ToolPak add-in:

1. Choose Tools | Add-ins from the Menu bar (For Excel 2003). In 2007, click on the Office button Options.

4. A message will prompt that the feature is not currently installed. Click Yes to proceed with the installation.

Once you installed the ToolPak add-in, you can use the **CONVERT** function to instantly perform the conversions from miles to kilometers.

*Note: Follow the future release of ProductivI.Ty to know how to use the Convert function.
